Final cessation effective date	2026-07-06

### Kaiko Bitwise Staked EigenLayer Index

Last day of benchmark calculation and publication	2026-07-06
Last rebalancing date	2026-05-29
Final cessation effective date	2026-07-06

## II. Background

### The Solactive Vinter Crypto Top 200 Index

- SVC200 – The Index was established to capture the entire crypto asset market, comprising the 200 largest crypto assets selected by 90-day average market capitalisation, weighted by market capitalisation, rebalanced monthly on the last business day of the month, and disseminated as a daily fixing at 16:00 London time.

The Index is no longer used as the underlying value for any financial instrument, investment fund, or financial contract. The sole commercial licence for the Index

has been terminated. No other licensee has contracted for use of the Index. In the absence of any licensed use, the continued provision of the Index does not serve any identified market or economic purpose and cannot be justified from an administrative, commercial, or regulatory standpoint.

In accordance with Kaiko Indices' policies and procedures, and pursuant to Article 28(1) of the BMR, Kaiko Indices has determined that it is appropriate to cease the calculation and publication of the Index.

### **Kaiko Bitwise Staked EigenLayer Index**

- The Index was established to track the total return of staked EIGEN, capturing both price performance (via the Kaiko EIGEN Reference Rate) and staking rewards through a quantity-adjusted methodology, with a daily APR averaged across top EIGEN operators holding at least 1M tokens, a 90% utilization rate, rebalanced monthly on the last business day of the month, and disseminated as a daily fixing at 16:00 London time.

The Indexes are no longer used as the underlying value for any financial instrument, investment fund, or financial contract. The sole commercial licence for the Indexes has been terminated. No other licensee has contracted for use of the Indexes. In the absence of any licensed use, the continued provision of the Indexes does not serve any identified market or economic purpose and cannot be justified from an administrative, commercial, or regulatory standpoint.

In accordance with Kaiko Indices' policies and procedures, and pursuant to Article 28(1) of the BMR, Kaiko Indices has determined that it is appropriate to cease the calculation and publication of the Index.

### **III. Continuity of Service**

Kaiko Indices will:

- Continue to calculate and publish the benchmarks until the specified cessation date

- Provide updates through our usual communication channels if any material changes occur.

#### **IV. Support During Transition**

For queries regarding this announcement, please contact:  
Benchmark Operations Team  
Email: [indices@kaiko.com](mailto:indices@kaiko.com)

#### **V. Regulatory Notice**

This announcement is made in compliance with Article 28(1) of the EU Benchmark Regulation and has been communicated to relevant competent authorities.

#### **VI. Important Information**

This notice constitutes an official notification under the EU Benchmark Regulation. All benchmark users should carefully consider the implications of this announcement and take appropriate action. This notice may be updated or amended as circumstances require.

The cessation timeline provided above is subject to any applicable regulatory requirements or operational considerations. Users will be notified of any material changes to this timeline.
